Parkland Win Over Champion

Parkland Seniors and Juniors basketball teams were Champion visitors on May 7. The Parkland Seniors played circles around the Champion girls with smart clean passes. The locals were a little rusty due to weather conditions, they say. Final score Parkland 30, Champion 6.

The same appears to have happened to the Juniors. Maybe it was spring fever. Anyway the score ended up with Parkland 22 and Champion 9.

Moisture Conditions in Alberta

Fairly widespread rains hindered seeding operations in the Prairie Provinces during the week ending today but added considerably to soil moisture in the areas where they fell. South eastern Manitoba, western Saskatchewan and practically the whole of the province of Alberta benefited in particular. Unfortunately many of the drier areas failed to get relief.

It is now possible to divide the Prairies into fairly definite zones with respect to the amount of precipitation received since spring arrived. Every district of Alberta has received more than normal precipitation since April 1st; at many meteorological stations of the south and central the totals are two to three times normal. For the province of Saskatchewan as a whole precipitation since April 1st has slightly exceeded normal. The distribution, however, has been decidedly uneven. Southern Saskatchewan has been favoured, particularly south central districts, while in the north and east centre precipitation has been little more than negligible. Southern Manitoba is wet, with precipitation since April 1 well above normal. Northern and most of central Manitoba is suffering from severe drought.

Considerable interest was shown at a Golf Club meeting held in the Bank of Commerce on Tuesday evening when a number of enthusiasts held their annual meeting and appointed officers for the ensuing year. Appeal to Subscribers

Again we appeal to all readers of this paper to take an interest in their paper by contributions of news.

While owned by an individual who has the most difficult task of financing the undertaking yet The Chronicle is truly a community service and is maintained only through the good will and help of public spirited citizens who feel that all things being equal the home paper has a claim to job printing and advertising required by organizations and individuals.

Our staff are conscientiously trying to carry on and we seek the co-operation of all. Do your part to make the paper what you would like it to be.

A WISE CHOICE— The Chronicle believes the ten elected New Democracy members of the House of Commons were wise in selecting John Blackmore as their leader. It recognizes his able leadership in the past and there is no question of his ability to interpret his western opinion in the east.

While the New Democracy movement was organized by Hon W D Herridge it is common knowledge that its aims were nothing less than Social Credit policies in another dress and The Chronicle never was enthusiastic towards the change.

The Social Credit group under the leadership of Mr Blackmore will have a definite contribution to make towards national unity and through Premier Aberhart are already indicating their interest in this unity by refusing to talk conscription.

While the Liberals have a large majority there is a place in our system for helpful suggestions and just criticism. Mr Blackmore has the respect and confidence of all parties and can be counted upon to lead his group in a worthwhile party parliamentary debate.

FOREIGN EXCHANGE ACQUISITION ORDER

IMPORTANT NOTICE

As announced by the Minister of Finance, the Foreign Exchange Acquisition Order, 1940, has been enacted by Order-in-Council under the authority of the War Measures Act.

Unless exempted by the Order, every resident of Canada who, on May 1st, 1940, has any foreign currency in his possession, ownership or control, whether in Canada or outside Canada, is required forthwith to sell such foreign currency to an Authorized Dealer (i.e. a branch of a chartered bank) for payment in Canadian dollars at the official buying rate of the Foreign Exchange Control Board.

"Foreign currency", for the purposes of the Order, means any currency (excluding coin) other than Canadian currency and includes bank notes, postal notes, money orders, cheques, travellers' cheques, prepaid letters of credit, bank drafts and other similar instruments payable in any currency other than Canadian currency, and also includes any amount in foreign currency of which a resident has a right to obtain payment by reason of a deposit, credit or balance of any kind at or with a bank, savings bank, trust company, loan company, stockbroker, investment dealer or other similar depository.

The Order does not require the sale of any foreign securities.

The Order does not affect any foreign currency, deposit or securities of any non-resident of Canada and for greater certainty the Order expressly declares that a non-resident visiting Canada for business or pleasure for a period or periods not exceeding six months in the year continues to be a non-resident for the purposes of the Order unless such person enters or has entered Canada with the intention of becoming a permanent resident.

No resident is required to sell any foreign currency if he satisfies the Foreign Exchange Control Board that he held such foreign currency on May 1st, 1940, solely as trustee or agent for a non-resident and that the non-resident's interest therein had not been acquired from a resident since September 15th, 1939, except in a manner approved by the Board.

Under certain conditions stipulated in Section 1 (b) of the Order, a resident who is not a Canadian citizen may be granted exemption, but only after application for exemption is approved by the Board.

No life insurance company incorporated in Canada is required by the Order to sell any foreign currency which it needs for the purpose of carrying on its business outside Canada.

Further particulars may be obtained from branches of chartered banks. Any resident who has any foreign currency in his possession, ownership or control on May 1st, 1940, regardless of amount, should consult his bank at once in order to ascertain the extent to which he is affected by the Order.

So SCIENCE MADE THIS BETTER OIL

In the more powerful engines in today's cars, trucks and tractors, oil has to be tough to stand the punishment. The New Marvelube, developed in Imperial Oil research laboratories, is specially engineered for these faster, hotter-running engines of today.

Marvelube has long been a leader among motor oils. The New Marvelube retains all the original high qualities—now it also goes through new refining processes which make it even tougher, cleaner and more heat-resistant than before.

So the New Marvelube lasts longer. Your oil bills are lower.

It keeps any engine cleaner, livelier. You get more power from the fuel you use. Upkeep costs are reduced to a minimum.

Take advantage of the new savings this better oil brings. See your Imperial Oil agent about the New Marvelube.

With all due respect and admiration for the good people of Champion and district who may belong to the Baptist Church a good story was told to the Chronicle publisher other day by no less a personage than a of the Anglican church. At an evangelistic service held recently the speaker, pleading for people to join the church, called for volunteers for the Lord's Army. Many responded but one in the front pews did not rise and when asked "Do you not wish to join said. Oh I belong to the local Baptist church. The speaker caused good natured laughter when he replied "Oh you are not in the Army you are in the Navy and can do just as good work for The King of Kings.
